### SKILLS SUMMARY

Music Composition/Musical  
Production

Sound Synthesis

Digital And Analogue  
Electronics

Arduino/Processing

Python/PureData

Computer architecture

Quantum Computation

English

German

### PERSONAL PROFILE

I am a sound artist and composer, graduated in Electronic Arts, professor at the university (UNTREF), researcher and academic manager, specialized in electronic synthesis and modular systems. Trained in a transdisciplinary career, I have worked through different artistic and musical development techniques, incorporating technology as a tool and science as a conceptual support.

### WORK EXPERIENCE

#### Co-Director

UNTREF | Oct 2016 - present

- Coordination, planning, and implementation across multiple teams

#### Professor

Artes Electronicas | Jan 2007 -Aug 2020

- Technology of the Sound and Video
- Laboratorio II
- Technology of Music I & II
- Musical Production

#### Director

Sistemas Modulares Nucleo | Jan 2016 - Aug 2020

- Development and investigation

### EDUCATIONAL HISTORY

#### Master in Technology and Aesthetics of Electronic Arts

UNTREF| Jan 2012 - Dec 2014

- Focuses on the crossover between art and technology with great emphasis on the creation of autonomous agents, robotic devices and mechanisms that include robotics.

#### Degree in Electronic Arts

UNTREF | Jan 2002 - Dec 2006

- Interdisciplinary training career that covers the field of Arts, Sciences and Technology
